Grommet Locations

All grommets are sized at 60mm in diameter, constructed of black plastic and come standard with a grommet cover. For alternate grommet locations, you can order DAGR grommets separately and install them in the field.

Base Only Options

Essential base assemblies are available in either one, two or three leg configurations with fixed or electric adjustment mechanisms, allowing you to combine an Essential base with your custom worksurface. All bases include necessary hardware for worksurface attachment.

Essential Personal Pendant Drawer

The Pendant Storage was designed to mount to any desk undersurface using woodscrews, with a low profile design at 12"W x 4"H.

- Extruded aluminum integrated pull on the underside of the drawer face
- Available in either 12" or 16" depths, intended to work on either 24" or 30" deep surfaces
- Universal design can mount to the underside of most worksurfaces
- Non-locking design

Essential Desk Privacy Screens

Straight Screen

- Straight Desk Screen available in two heights, 17" above desk and 23" above desk
- Hangs 7" below desk
- Sized shorter than the desk surface by .5" on each side
- Clamps are designed to fit surfaces 1" to 1 - 1/8" thick

Modesty Screen

- Modesty Screen mounts to undersurface of desk with wood screws
- Hangs 9" below desk
- Sized shorter than the desk surface by .5" on each side

Essential Desk Technology

Optional Mobility Kit provides two Locking Casters & two Non-Locking Casters (2-Leg desks only)

Fixed Height

Standard Height Range

Extended Height Range

Essential Desk Control Options

Embedded Two-Button Switch

- Low profile and simple design, allows you to control desk height right from the desk surface using + or - buttons
- Positioned on the right side of desk surface
- *Embedded Two-Button Switch designed by Morten Nikolajsen, Mohoni Studio, Svendborg, Denmark*

Bluetooth Add-On

- Optional Bluetooth Adapter allows desk control wirelessly from the Desk Control App on your smartphone
- [Programmable smartphone app](#) lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hotel desking situations
- *Adapter is not needed with Paddle Switch options below*

Undersurface Paddle Switch

- Features two programmable positions, and an LED reminder to the user to change positions
- Integrated Bluetooth and [programmable smartphone app](#) lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hoteling desk situations
- Adjust desk height manually by tilting the panel in the same direction you’d like the desk to move

Undersurface Paddle Switch with Display

- The advanced paddle switch features a display to guide users, four programmable positions, and a light strip reminder to change positions
- Integrated Bluetooth and [programmable smartphone app](#) lets you adjust desk straight from the app, schedule standing working sessions with reminders to change positions, and view statistics of daily achievements (standing time and burned calories)
- App allows “Guest” or “Owner” use for permanent vs. hotel desk situations
- Adjust desk height manually by tilting the panel in the same direction you’d like the desk to move

Essential Desk | Product Specification Details

2-Leg Desk

The Essential 2 Leg Desk comes with a worksurface constructed from any of the following core materials (depending on options): 18mm European birch multi-ply plywood with a waterborne edge stain, 1.125" double refined NAF MDF with a waterborne edge stain, or 1.125" M2 industrial NAF particle board with a 1.5mm polypropylene edge band. The desk comes with either a rectangle or super ellipse shaped top. All core materials are finished with either horizontal or post-form grade high pressure laminate or Forbo furniture linoleum on the top surface. The bottom of the worksurface is laminated with the same material as the top unless the top is Forbo, in which case a horizontal grade backer sheet is applied. These laminates are cold pressed using Wilsonart 3280 PVA ultra-low VOC adhesive. The support rail of the desk consists of a 12-gage formed sheet metal channel and 2 switch-controlled Linak lifting columns. There are 3 switch options to control the lifting columns: an embedded button, a Display Paddle switch with Bluetooth connectivity, or a standard Paddle switch with Bluetooth connectivity. The support rail is secured to brass inserts on the underside of the worksurface via screws from the underside of the channel. All metal components are powder coated. The desk also includes the Linak DS1 Anti-Collision system to prevent damage or injury while adjusting the desk.

3-Leg Desk

The Essential 3 Leg Desk comes with a worksurface constructed from any of the following core materials (depending on options): 18mm European birch multi-ply plywood with a waterborne edge stain, 1" double refined NAF MDF with a waterborne edge stain, or 1.125" M2 industrial NAF particle board with a 1.5mm polypropylene edge band. All core materials are finished with either horizontal or post-form grade high pressure laminate or Forbo furniture linoleum on the top surface. The bottom of the worksurface is laminated with the same material as the top unless the top is Forbo, in which case a horizontal grade backer sheet is applied. These laminates are cold pressed using Wilsonart 3280 PVA ultra-low VOC adhesive. The support rail of the desk consists of mechanically fastened 12-gage formed sheet metal channels and 3 switch-controlled Linak lifting columns. There are 3 switch options to control the lifting columns: an embedded button, a Display Paddle switch with Bluetooth connectivity, or a standard Paddle switch with Bluetooth connectivity. The support rail assembly is secured to brass inserts on the underside of the worksurface via screws from the underside of the channels. All metal components are powder coated. The desk also includes the Linak DS1 Anti-Collision system to prevent damage or injury while adjusting the desk.

Desk Straight Screen

Constructed from two pieces of 12mm LDF wrapped in fabric using a rubber emulsion Simalfa glue with 0 VOC's. The 2-Leg desk screen includes two internal 3/16" thick hot rolled steel mounting plates designed to mount to welded steel clamping brackets. The clamps are designed to clamp to worksurfaces between 1" and 1.125" thick. All metal components are powder coated.

Desk Corner Screen

The main portion of the screen is constructed of two pieces of 12mm LDF wrapped in fabric using a rubber emulsion Simalfa glue with zero VOC's. The side of the screen is constructed of 12 gauge cold rolled steel offered in a slotted version available in Watson powder coated finishes or a white board coating with limited slots needed for mounting. The screen includes brackets that clamp to the desk surface. The screen is non handed and as such can be repositioned to work either in a left-handed, or right-handed orientation. The screen can also be specified as a full wrap screen which consists of two screens, one mounted in the right-handed and a second mounted in a left-handed orientation completing a full wrap around the back and two sides of the desk. All metal components are powdered coated.

Desk Modesty Screen

Constructed of two pieces of 1/4" MDF wrapped in fabric using a rubber emulsion Simalfa glue with 0 VOC's. The modesty panel mounts below the worksurface using 10-gage cold rolled steel brackets that mount to the desk surface using wood screws. The modesty panel is designed to span the width of the desk and can be mounted for use with or without a monitor arm. All metal components are powder coated.

Pendant Storage

The pendant storage is designed to mount on the underside of any worksurface. Available in either 12" and 16" deep versions, the storage is intended to work on either 24" or 30" deep desks. The pendant storage is constructed of a custom aluminum extrusion creating the drawer face, integrated pull, and pencil tray, and is capped on the sides with 16-gage cold rolled steel brackets. The interior of the drawer features an e-leather wrapped drawer bottom to create a soft landing point for phones or other items.

E-Chain

Featuring an industry leading injection molded plastic E-chain to control the movement of the cables leaving the desks, the universal energy chain allows for connecting any of Watson's desks to each of Watson's power-voice-data channels. Each mounting bracket is constructed of 16-gage powder coated cold rolled steel and mechanically attaches to the power-voice-data rails and the desks.
